Aayush Pandey

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer skilled in the MERN stack, capable of leveraging Generative AI to enhance development processes. Proficient in API design with Node.js and Express.js, and frontend development with React.js. Demonstrates adaptability in learning new technologies swiftly to drive software excellence.

PROJECTS

1. TripSage | React | Node.js | Express | 🌐 | ○ | MongoDB | Tailwind CSS | JWT

React | Node.js | Express.js | Tailwind CSS | JavaScript | HTML5 | MongoDB

- Designed and developed a scalable destination recommendation platform and trip planner using the MERN stack.
- Implemented secure user and admin authentication systems using JWT for controlled access.
- Created interactive dashboards with responsive design for seamless user and admin experience.
- Developed robust backend APIs using Node.js and Express.js to support application functionality.
- Optimized MongoDB database models and queries for efficient data retrieval and storage.
- Utilized Git for version control and ensured collaborative readiness in the solo project setup.

2. ShopSmart | JavaScript | React | | | Redux Toolkit | Tailwind CSS | 🌐 ○ Material UI

React | JavaScript | HTML5 | Tailwind CSS | Redux

- Developed a modern and responsive UI for an online shopping platform using Tailwind CSS and Material UI.
- Implemented user and admin authentication to ensure secure access to the platform.
- Built robust features such as product browsing, cart, and wishlist functionality, enhancing user experience.
- Enabled efficient product management and CRUD operations for admins, streamlining platform operations.
- Collaborated with a team of developers, ensuring seamless integration of frontend and backend components.
