*Indian Institute of Technology, Bombay*
Attended a workshop in PCB Design and Fabrication conducted by IIT Bombay in 2019.

# Aayush Pandey
## Full Stack Web Developer

## Professional Summary

Dynamic Full Stack Web Developer with expertise in the MERN stack, proficient in React, Node.js, and MongoDB. Harnesses Generative AI for innovative solutions and adapts swiftly to new technologies. Adept at teamwork and enhancing software quality through collaborative and efficient development practices.

## Projects

### ShopSmart | JavaScript | React | Redux Toolkit | Tailwind CSS | Material UI
[Live Demo Link]   [Github Repo Link]

JavaScript   HTML5   CSS3   React   Redux   Git
Responsive Web Design   Firebase

- Developed a user and admin registration system with secure authentication mechanisms.
- Implemented product browsing, cart, and wishlist functionalities to enhance the user shopping experience.
- Built admin functionalities to manage products and perform CRUD operations efficiently.
- Designed a responsive UI using Tailwind CSS and Material UI to ensure a modern and user-friendly interface.
- Collaborated with a team to integrate frontend components using React and Redux Toolkit for state management.

### Real estate site   [Live Demo Link]

JavaScript   React   HTML5   CSS3
Responsive Web Design   Redux

- Developed a fully responsive real estate website using React, ensuring seamless user experience across various devices.
- Created distinct Admin and User Dashboards with role-based access and functionality.
- Integrated Firebase for secure authentication and user management, including login and signup features.
- Built a user feedback system to collect and display property-specific feedback efficiently.
- Implemented advanced filtering and property listing features for streamlined property search and posting.
